#### Slash electricity bills

Emerald EMS is helping thousands of Australians save hundreds of dollars on their quarterly electricity bills.

Creating an energy aware home that can automatically alert us when energy is wasted, highlights time-of-use rates & informs when appliances need attention. Emerald EMS is reshaping our experience with energy!

7 Years+ Battery Life

5 Years Warranty

Australian Owned

PRO Install

ECO Friendly

## FREE UPGRADES UNDER VICTORIA ENERGY UPGRADES PROGRAM

### EXHAUST FAN SEAL

This exhaust fan seal is an innovative way to block unwanted airflow between the ceiling space and your home through ceiling exhaust fans when they are switched off. The simple one-way vents allow normal airflow when the fan is on. It can be installed from inside the house with no access to ceiling required. Get it installed for FREE under Victoria Energy Upgrades (VEU) Program. Installation is carried out by certified A Grade Electrician.

### DOOR FRAME SEAL

It is a door sealing when installed restricts airflow around the entire perimeter of the door without impairing normal operation of the door. Sealing the gaps significantly cut down the infiltration of sound, light, moisture, fire and smoke. It saves any loss of heat and electricity. Absolutely Free Installation by certified Retrofitter.

### SHOWER HEAD

Water efficient shower head that reduces water use in shower and reduces energy used in heating shower water. Absolutely FREE upgrade and FREE installation by certified Retrofitter.
